Download the PDF sample for sharing, or open your browser print menu and choose Save as PDF. The printed view keeps the sample cards, parent prompt, and activity steps while hiding extra page chrome. How to test it with a child

Arabic parent prompt: Read one word, point to one object, then stop while the activity still feels easy. Three-minute activity: choose one color, draw a tiny object, and say the word once more with Pinyin. This preview is here to validate interest before a paid product exists. There is no price, purchase button, or payment link on this page.
